

DATA SHEET

CERAMIC DISPENSER

REFERENCE FB1018

Ceramic Cook Water Dispenser, functional and decorative design in white **porcelain** with double blue striped detail of uniform size and that admits the incorporation of wooden support available both for desktop and floor, facilitating its use in every circumstance. It uses internal gravity as a dosing system and its internal composition offers a technical and hygienic solution.

Dishwasher safe.

The bottle insertion system offers a complete resource as it is the same as our compressor fountains. It incorporates a spike that enters the PET bottle through the 5 gallon cap, and through which the water falls by gravity to the ceramic tank where the water is kept at an optimum temperature.

This tank is composed of a single piece which speeds up cleaning and reduces maintenance.

CERAMIC DISPENSER
